

### AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

#### Listing of Claims

Claim 1 (currently amended)

1. Cosmetic or dermatological preparations, which are oil-in-water or water-in-oil ~~Pickering~~ pickering emulsions, comprising
  - (i) an oil phase,
  - (ii) an aqueous phase ,
  - (iii) amphiphilic boron nitride and is dispersible both in water and in oil, and
  - (iv) at most 0.5% by weight of one or more emulsifiers.

Claim 2 (currently amended)

2. Preparations according to Claim 1, ~~characterized in that~~ wherein they are emulsifier-free.

Claim 3 (currently amended)

3. Preparations according to Claim 1, ~~characterized in that~~ wherein further cosmetic or pharmaceutical auxiliaries, additives and/or active ingredients are present.

Claim 4 (currently amended)

4. Preparations according to Claim 1, ~~characterized in that~~ wherein the content of boron nitride is between 0.1% by weight and 30% by weight, based on the total weight of the preparations.

Claim 5 (currently amended)

5. Preparations according to Claim 1, ~~characterized in that~~ wherein the average particle diameter of the amphiphilic boron nitride used is less than 20  $\mu\text{m}$ .

Claim 6 (currently amended)

6. Preparations according to Claim 1, ~~characterized in that~~ wherein, in addition to amphiphilic boron nitride, further pigments are present, which are selected from the group consisting of modified polysaccharides; microfine polymer particles; micronized, inorganic pigments; and mixtures thereof.

Claim 7 (original)

7. Preparations according to Claim 1, comprising one or more additives or active ingredients selected from the group consisting of antioxidants and/or UV protectants.

Claim 8 (original)

8. Preparations according to Claim 1, comprising one or more additives or active ingredients selected from the group consisting of astringents and/or antimicrobially effective substances and/or substances effective against acne.

Claim 9 (currently amended)

9. Preparations according to Claim 5, ~~characterized in that~~ wherein the average particle diameter of the amphiphilic boron nitride used is less than 15  $\mu\text{m}$ .

Claim 10 (currently amended)

10. Preparations according to Claim 6, ~~characterized in that~~ wherein the micronized, inorganic pigments are amphiphilic metal oxides.

Claim 11 (currently amended)

11. Preparations according to Claim 10, ~~characterized in that~~ wherein the amphiphilic metal oxides are selected from the group consisting of titanium dioxide, zinc oxide, iron oxides or mixed iron oxides, silicon dioxide, silicates and mixtures thereof.
